Comprehensive Rehabilitation

Class IV Deep Tissue Laser Therapy (DTLT) helps you recover from your injury faster. This advanced procedure is now a staple in professional and university training rooms. DTLT facilitates both the vascular and cellular systems to enhance the healing of non-operative sprains/ strains as well as surgical repairs.

Some Problems & Conditions Treated

- Cervical Pain
- Elbow & Joint Pain
- Lumbar & Sciatic Pain
- Lower Extremity Pain
- Knee & Joint Pain
- Foot & Ankle Pain
- Wrist Pain
- Muscle Spasms
